

The 2018 Grand Mesa Baptist family was one of the best ever. We had a full camp, all cabins were full and we housed about 20 campers off campus. Many of the campers took advantage of early registration so we were able to know in advance how many to provide for.

This year's camp had 91 campers coming from nine different churches.

The family camp has a unique function in that since we have families with all different ages. Families can be together during most of the camp. They can enjoy boating hiking, playing, dinning, sports, and worshipping in one of the most beautiful places on earth.

One of the advantages to family camping is that we can introduce small children to the camping program along with their parents, relatives and friends. When they get older they can come back to a familiar setting and already know what to expect.

The camp which is located by Baron Lake in a beautiful, Spruce Fir subalpine forest, has a 27 acre campus which includes a full range of facilities.

This summer you and your family can escape the summer heat and enjoy a very long weekend, worshipping and playing with Christian friends and relatives.

Please join us this year for a great and memorable experience.

The camp is open to all Christian families. You can print a registration form off of this website. Enroll early to make sure you have a place at camp.
